DETAILED ACTION

1. This communication is in response to the application filed on February 16, 2001.

The restrictions, cited are as stated below:

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-16 and 21, drawn to a method and corresponding system for managing transactional information, classified in class 705, subclass 35.

Group II. Claims 17-20, drawn to a method of determining risk associated with transactions stored in a system, classified in class 705, subclass 38.

3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as storing and managing transactional information and invention II has utility such as determining risk based on customer records. See MPEP § 806.05(d).

4. The independent claims in each Group I and II recite limitations that are not found together in a common independent claim of another Group, thus it is evidence that applicant believes a distinct invention combination lies within each set of

independent claims. Also, the dependent claims then append a multiple of distinct inventive concepts for which applicant's submission is evidence that applicant believes each supports a distinct reason for invention. See MPEP § 806.05(d).

5. Applicant is advised that the response to this requirement to be complete must include an election of one of the inventions, I or II, to be examined even though the requirement be traversed.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

7. A shortened statutory period for response to this action is set to expire 0 (zero) months and 30 (thirty) days from the mail date of this letter. Failure to respond within the period for response will result in ABANDONMENT of the application (see 35 U.S.C 133, M.P.E.P 710.02, 710.02(b)).
